# SD Andes

*A High-Yielding Hard Red Winter Wheat*

SD Andes, a newly-released, late-maturing variety provides a combination of very good to excellent yield potential, excellent straw strength and stripe rust resistance into a cultivar ideally suited for dryland winter wheat production areas in South Dakota and the region.

## **Agronomics**

Yield Potential: Good-Excellent  
Test Weight: Good  
Grain Protein: Average  
Maturity: Late  
Height: Medium-Tall  
Straw Strength: Good-Excellent  
Winter Hardiness: Very Good  
Milling and Baking Quality:  
Good

## **Disease Resistance**

Stripe Rust: Moderately  
Resistant to Resistant  
Leaf Rust: Intermediate  
Fusarium Head Blight:  
Intermediate

**SOUTH DAKOTA  
STATE UNIVERSITY**  
College of Agriculture, Food  
and Environmental Sciences

South Dakota State University Extension  
South Dakota Agricultural Experiment Station

SD Andes was developed with funding support from U.S. Department of Agriculture and South Dakota Wheat Commission. Varieties are developed by SDSU researchers, evaluated by SDSU Extension Crop Performance Testing and increased and distributed by the Foundation Seedstocks Division.
